GENDER:

FASTING:

Clinical Info:

COLLECTED:

RECEIVED:

REPORTED:

Test Name	Result	Flag	Reference Range	Lab
POLIOVIRUS ANTIBODY, NEUTRALIZATION				
POLIO 1 TITER	1:32			XE
POLIO 2 TITER	1:128			XE
POLIO 3 TITER	1:128			XE
<p>The presence of neutralizing serum antibodies (titers of 1:8 up to >1:128) against polioviruses implies lifelong immunity. The serum neutralization test is type specific; antibodies detected against one type does not indicate immunity against other types. Some persons without detectable titers (<1:8) may also be immune as demonstrated by elicitation of a secondary-type serum antibody response upon rechallenge with live polio vaccine.</p>
